About Me

I'm a professional within my field with an outstanding list of medical achievements. I'm into all eye care, eye surgery, and ophthalmology-related field of practical and academic medicine.

My specialization and scientific interests: laser treatments for fundus pathology, glaucoma, refractive laser microsurgery, and cataract microsurgery.

Professional Experience

1994 (Minsk, Belarus)

I graduated from the Minsk State Medical Institute with a degree in General Medicine.

1995 (Minsk, Belarus)

After an internship at the 10th city clinical hospital in Minsk in the 2nd department of eye microsurgery, I received the qualification of an ophthalmologist.

2002 (Berlin, Germany)

I completed a three-month internship at the Neukolln Eye Clinic with Prof. Dr. D.T. Pham.

2003-2012 (Minsk, Belarus)

I worked as a laser surgeon in the private clinic «New Vision» with laser & excimer laser vision correction systems of «NIDEK» and «ZEISS».

2017 (Barcelona, Spain)

I successfully completed a laser surgery training course at the Abbot center.

2017 (Minsk, Belarus)

After completing a retraining course at the State Educational Institution «Belarusian Medical Academy of Postgraduate Education», I received the "healthcare organizer-doctor" qualification.

2013-Today (Minsk, Belarus)

I have been working as an ophthalmic surgeon at «Optimed», the private medical center in Minsk.
